School Shootings - United States

Average Number of Shooting Incidents Per Year

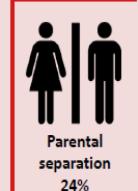

Child and Family

How many adults in England have suffered each ACE?

CHILDHOOD HOUSEHOLD INCLUDED

Domestic violence 13%

Mental illness 12%

Alcohol abuse 10%

Drug

4%

Compared with people with no ACEs, those with 4+ ACEs are:

- times more likely to currently binge drink and have a poor diet
- times more likely to be a current smoker
- times more likely to have had sex while under 16 years old
- 6 times more likely to have had or caused an unplanned teenage pregnancy
- times more likely to have been involved in violence in the last year
- times more likely to have used heroin/crack or been incarcerated

For every 100 adults in England 48 have suffered at least one ACE during their childhood and 9 have suffered 4 or more

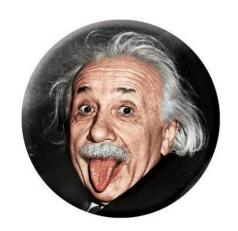

Elderly NCDs and Health Expenditure

- 5% of population spent almost half of the resource in Norway
- 1 million spent 80% of NHSO's expenditure (48 millions beneficiaries)
- 2.8 hundred thousands spent 80% of expenditure (15 millions beneficiaries)

Insanity: doing the same thing over and over again and expecting different results.

Albert Einstein

The number of hospital beds are declining spurred by regional economic slumps, decreased government spending on health care, hospital closings and consolidations, and pricing pressures

Lesson learnt from the best

reduction of full scale emergency hospitals and hospital beds

Governmental levels

- State level / 4 Health Regions
- 19 counties
- 422 municipalities Jan 1st 2018 (will be reduced to 354) (primary health care)

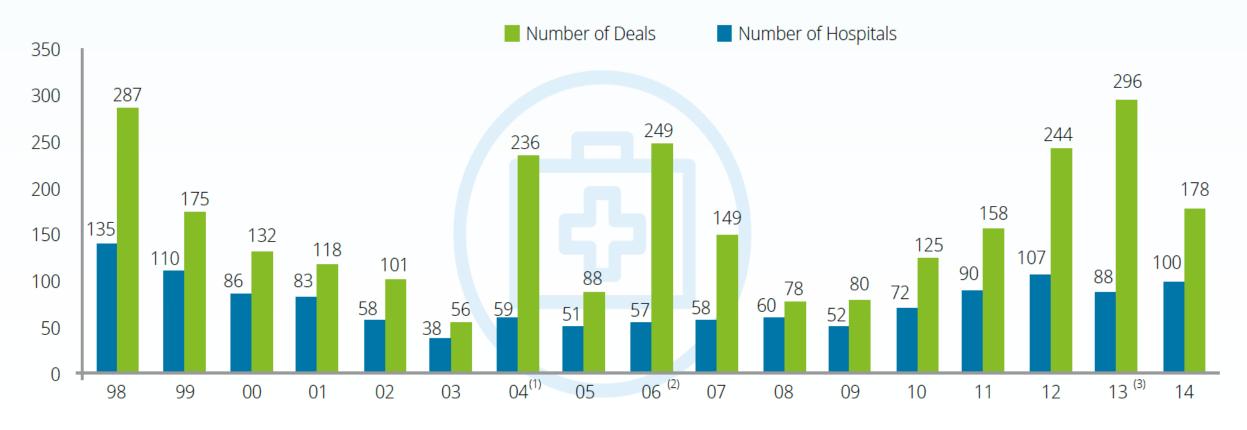

In the last yeals we have seen:

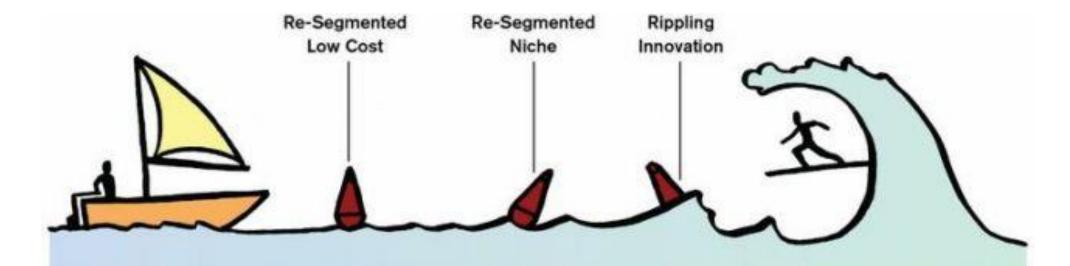

- reduction of full scale emergency hospitals and hospital beds
- increase of health care centres
- development from inpatient care to outpatient care and from hospital care to home care
- · increased differentiation and specialization
- · increased proportion of patients with chronic diseases
- growing proportion of elderly people but many are active and healthy
- increased opportunities for users and patients to choose provider
- increase of private providers

422 municipalities Jan 1st 2018 (will be reduced to 354) (primary health care)

The continuing trend of "bigger is better" is apparent in the number of U.S. announced hospital mergers and acquisitions going back as far as 1998.

- (1) In 2004, the privatization of Select Medical Corp., an operator of long-term and acute-care hospitals, and divestiture of hospitals by Tenet Healthcare Corporation helped to increase the number of hospitals affected.
- (2) In 2006, the privatization of Hospital Corporation of America, Inc. affected 176 acute-care hospitals. The acquisition was the largest health care transaction ever announced.
- (3) In 2013, consolidation of several investor-owned systems resulted in large number of hospitals involved in acquisition activity.

Sustaining Innovation

Problem is well understood

Existing Market

Innovation improves performance, lower cost, incremental changes

Customer is believable

Market is predictable

Traditional business methods are sufficient

Disruptive Innovation

Problem not well understood

New Market

Innovation is dramatic and game changing

Customer doesn't know

Market is unpredictable

Traditional business methods fail

Not just innovation but disruption

Millennial in Thailand

- 32% of the Thai 68 MB population are millennial, approximately 22 Million
- According to National Statistics
 Office (NSO), Millennial spend an
 average of 8 hours per day online
 (US average 3.6 hours/day)
- Feelings of disconnect from Thailand centuries of tradition and culture
- Under pressure from older generation to maintain core values
- Shackled by chronic political problems and ineffective education

Millennial in Thailand Tech & Social Media

- 81% of Thai Millennial own a smartphone compared to only 45% globally
- 60% use smartphones to make a decision
- 46% of active Internet users claim to have been influenced by bloggers and vloggers (video bloggers)
- Thailand has 1.7 Million Millennial Instagram users

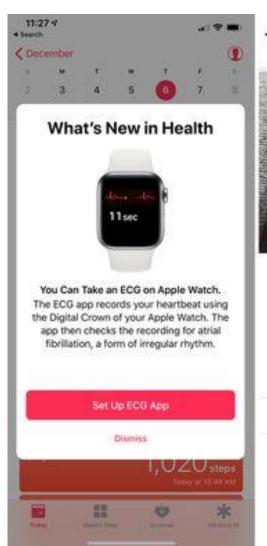

The Drive-Through Generation (Gen-Y)

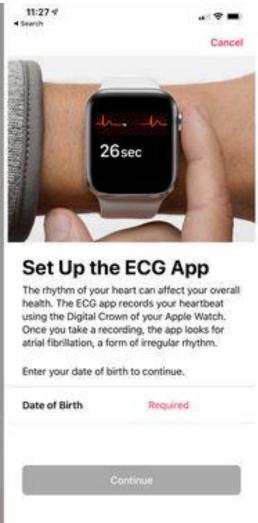

- They want care fast. (No more Primary Care)
- They do their homework.
- They trust but avoid doctor.
- They want upfront estimates. (know cost and value before making dicision)
- They listen to other patients.
- They're leading health tech trends.
- They view health holistically.
- They have short span attention.

Apple Watch Series 4: How to use the ECG app

ECG records an electrocardiogram-also called an ECG or EKG-which represents the electrical pulses that make your heart beat. The app checks these pulses to get your heart rate and see if the upper and lower chambers of your heart are in rhythm. If they're out of rhythm, that's atrial fibrillation.

Continue

Take Your First ECG

Recording an ECG typically takes 30 seconds.

First, open the ECG app on your Apple Watch.

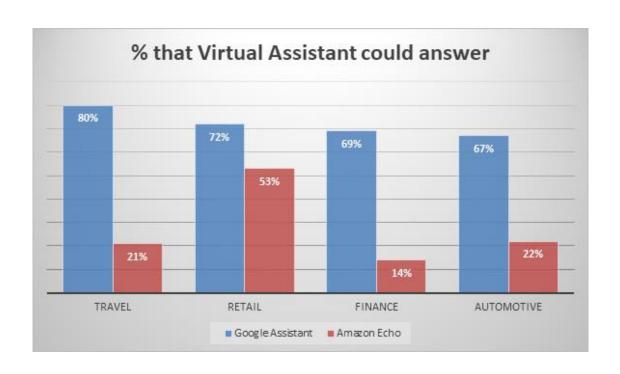

Rest your arms on a table or in your lap, and hold your finger on the Digital Crown.

Note: To take an accurate ECG, your Apple Watch needs to be snug on the wrist you selected in Settings.

Fitbit and Google Announce Collaboration to Accelerate Innovation in Digital Health and Wearables

4/30/2018

Fitbit to leverage Google Cloud to increase operational efficiency, agility and speed to market

SAN FRANCISCO--(BUSINESS WIRE)-- Fitbit, Inc. (NYSE: FIT) the leading global wearables brand, and Google today announced they will work together to innovate and transform the future of digital health and wearables, leading to positive health outcomes for people around the world.

Fitbit and Coogle are exploring the development of consumer and enterprise health solutions. Fitbit intends to use Google's New Cloud Healthcare API to kelp the company integrate further into the healthcare system, such as by connecting user data with electronic medical records (EMR). Combining Fitbit data with EMRs can provide patients and clinicians a more comprehensive view of the patient profile, leading to more personalized care. The companies will also look to help better manage chronic conditions like diabetes and hypertension by using services such as Fitbit's recently acquired Twine Health. Using Google's Cloud Healthcare API, Twine can make it easier for clinicians and patients to collaborate on care, helping lead to better health outcomes and positive returns for employers, health plans and hospitals.

Strength of Region 8th

One of my favorite stories is when John F Kennedy visited the NASA space center, he saw a janitor carrying a broom and he walked over and asked what he was doing. The janitor responded: "Mr. President, I'm helping put a man on the moon".

Purpose is that sense that we are part of something bigger than ourselves, that we are needed, that we have something better ahead to work for. Purpose is what creates true happiness.
